

AGAR Executive Meeting

Christopher Blyth <christopher.blyth@uwa.edu.au>

Mon 7/03/2022 8:52 PM

To: Geoffrey Coombs <geoffrey.coombs@health.wa.gov.au>; Geoffrey Coombs <G.Coombs@murdoch.edu.au>; Daley, Denise <Denise.Daley@health.wa.gov.au>; Jacson Chung <jacson@asainc.net.au>

Geoff, Denise and Jacson,

I am hoping that either as other business or as an agenda item, we could discuss the paediatric program

I have reached out to bring a committee together, ensuring state, hospital-laboratory representedness

I am proposing that the committee is comprised of

CB (Chair)

Geoff Coombs

Phoebe Williams (link with neonatal sepsis work, likely NHMRC ideas grant going in this year, NSW rep)

Penelope Bryant (link with paediatric AMS group, Victoria rep)

Adam Irwin (link with existing GNSOP project, QLD rep)

Morgyn Warner (link with AGAR exec, lab representation, SA rep)

Anita or Asha (or both, WA rep)

I am hoping that we could endorse this approach on Wednesday so I can set up the first meeting (and potentially discuss the seeding project)

If you are happy that this is an appropriate way to proceed, let me know and I will prep a paper for Wednesday

Thanks

Chris
