Hi Naomi,

I have added the GNSOP 2020 data to the file sent last May.

We are expecting more data to be submitted for 2021, but once it is finalised, the file can be refreshed.

Best wishes

Jan

Subject: Qld AGAR UTI-BSI data update

Dear Jan and Denise,

May I please trouble you for an update to the Qld AGAR urinary-tract focus AESOP and GeNSOP isolates you previously sent me?

AESOP I have 2015 – end 2020 – is 2021 available?

GeNSOP I have 2015 – end 2019 – would it be possible to please send 2020 +/- 2021 if available?

A preliminary analysis has been helpful really helpful in developing ‘syndromic combination antibiograms’ stratified by age and sex, but it would be great to validate against the most recent data in OrgTrx.

We have a time-limited project to June 2022, so hopefully won’t keep coming back to you with this!!

Many thanks and all the best,

Naomi
