RE: CBH and AGAR

Hi Denise and Enzo Thanks for your emails, and yes – I'm happy to be able to advise we can return to participating in AGAR for 2021. Please accept my apologies for not making contact before now, and please also accept my apologies for needing to suddenly withdraw from this exercise during the year. The AGAR project had always been exclusively Bronwyn's domain for many years, so unfortunately no one else currently has the knowledge of what needs to be done. Would it be possible to get hold of some sort of "induction package" to allow me to bring some volunteers (including myself) up to speed with requirements/procedures?

Happy to discuss.

Kind regards

Mark
