Hi Denise,

The Nepean isolates will be sent tomorrow.

Also, just letting you know, I will be passing the AGAR duties along in 2021.

I have called for expressions of interest. There has been some interest, and so I am waiting for Rifky and Dr Branley to appoint someone. I have written a detailed procedure and will be here to support whoever takes over from me.

I will let you know when that happens so we can get them a password etc.

Kind regards,

Linda Douglass
