Dear AGAR members

We noticed an inconsistency in the Web portal regarding outcome at 7 and 30 days. This has now been corrected. The problem was if the patient died on exactly the 7th or 30th day

If the patient dies on the 7th day or less please mark outcome 7 days - died

If the patient dies on the 8th - 30th day please mark outcome 30 days - died

Regards,

Denise Daley, MASM
