Subject: AGAR participation 2023

Dear Denise

Hope all is well. Just a courtesy email to reach out regarding AGAR participation for 2023. Please accept my apologies for the couple of false starts we've had with this over the last couple of years. A high volume of recent staff turnover on top of all the COVID chaos conspired to ensure we didn't manage to get this off the ground on each occasion.

We are fortunate to now have some greater stability in staff numbers and experience within our department and I am eager to have us return to our previous AGAR participation agreement if that's still possible. We would be able to commence participation for the second quarter of 2023 onwards if that's suitable for the AGAR group. If that's satisfactory for you, could I please request the most recent relevant information to start us on our journey?

Thanks for your patience during the last few years, and I look forward to hearing from you.

Kind regards

Mark
